See attached. It's been a while, but I'm pretty sure that this is the upload file for the LXS database.

BTW - I have an interesting story regarding AES from the American Coal Ash Association meeting. I'll tell

it during our next conference call on Thursday.

Andy,

The lawyers are in a tizzy now that they have looked at the two spreadsheets we sent them. The 1315 sheet was populated with analytical data while my 1313 sheet was not.

Any chance I can please get a populated 1313 sheet to lock down and send to them?

Thanks,

Peter
